Order Books Now Open for the 2025 FOTON Aumark S – The Truck That Means Business!

FOTON Australia is pleased to welcome the 2025 Aumark S light-duty truck range, the first model in FOTON Australia's new line-up of commercial vehicles.

Designed to meet the diverse needs of Australian businesses, the Aumark S combines adaptability, durability, and exceptional performance to deliver outstanding results in various industries.

Tested by FOTON International's R&D team over 1.6 million kilometres across a range of conditions, the Aumark S has proven itself as a reliable solution for both urban and regional operations. Its compact size and agility also make it ideal for navigating busy city streets and tight commercial spaces, while its robust build ensures reliability in more demanding environments.

With a starting price of \$51,700 MLP¹, the FOTON Aumark S light-duty truck range offers excellent value for businesses without compromising on quality. Equipped with modern technology, intelligent safety features, and proven efficient engines, the Aumark S is the perfect workhorse for businesses aiming to enhance their logistics and transport operations.

Available in GVM options of 4.5, 6, 7.5 and 8.5 tonne, the Aumark S offers flexibility to suit various business needs. Choose from either cab chassis or tipper configuration, depending on your operational requirements.

Key Features of the FOTON Aumark S Range:

- **Reliable Performance:** Powered by the world-renowned Cummins engine and paired with ZF transmission for dependable, long-lasting performance.
- **Safety at its Core:** A suite of intelligent safety systems designed to protect both drivers and pedestrians.
- **Flexible Configurations:** The innovative 1+N chassis allows for versatile vehicle configurations to suit various business needs.
- **Smooth Handling:** A well-designed suspension system for optimal driver comfort and smooth handling.
- **Driver-Centric Cabin:** Ergonomically designed cabin with comfortable seating and enjoyable infotainment technology.

FOTON

- Anti-lock Braking System (ABS)
- Electronic Stability Program (ESP)
